

## Why FSN?

- Our **on-site courses** eliminate the need for students to travel and minimize down time
- FSN provides each student with a **training manual** and presents the course material using PowerPoint presentations. These along with props, discussions, hands-on training & student exercises help maximize the effectiveness of our training. Many courses have training material available in French.
- All FSN instructors are **professional trainers** with many years of experience in real life situations.
- **Our oral, written & practical exams** help confirm student understanding.
- **Management summaries** are provided following each program. The summaries & our training materials help companies demonstrate due diligence.
- Many of our courses are already **recognized by Provincial governments** helping companies meet legislative requirements
- **Wallet cards and/or wall certificates** are provided to successful candidates. Lost or stolen cards are replaced at no charge.
- During courses students learn **proper handling procedures**. This can lead to reduced down time & improved productivity.
- FSN **focuses on safe practices** & encourages the use of PPE (Personal Protective Equipment). The intent is to improve safety & lower related health costs.
- **Ongoing support** is available from FSN after the program has been completed.
- FSN has WSIB coverage and carries **\$2 million of liability insurance**

*"The instructor was very thorough in his training and made good use of the props and real life examples to get his point across. He related well to the students and they found him easy to understand" (Student/Supervisor)*
